

ATHI LAKSHMI S

Senior Software Developer

+91 8248377083 | athilak1999@gmail.com | LinkedIn | Github

Bangalore

Professional Summary

Results-driven Software Engineer with **4+ years** of experience in designing and developing scalable, high-performance web applications using **React.js, TypeScript, and Node.js**. Skilled in micro-frontend architecture, event-driven systems, and **MUI** for building customer-centric solutions integrated with **CI/CD** pipelines. Adopt at **vibe coding** and collaborating in agile environments to translate business needs into impactful software. Passionate about clean code principles and **full stack debugging** across web servers and system environments.

Technical Skills

Languages & Frameworks: JavaScript, **TypeScript**, React.js, Next.js, Angular, **Node.js**.

Frontend & UI: HTML5, CSS3, **MUI (Material UI)**, Tailwind CSS, **React Hook Form**, Bootstrap.

State & Data: Redux, Context API, **RESTful APIs**, Axios.

Tools & Platforms: Git, GitHub Actions, **Docker**, Webpack, Vite.js, **Azure**.

Specialized: Deep gram, WebRTC, Media Recorder API, SignalR, Kafka, Responsive UI, Accessibility (WCAG).

Professional Experience

ScribeEMR Systems Pvt Ltd

Senior Frontend Developer

Bangalore

Feb 2024 – Present

- Developed and optimized production-ready UI components using **TypeScript, MUI, and React Hook Form**, improving development efficiency by 20%.
- Integrated AI-powered transcription with Deepgram and Azure Speech APIs, achieving 95% accuracy.
- Leveraged **vibe coding** techniques to rapidly prototype and iterate on collaborative rich-text features using **CKEditor** and SignalR.
- Demonstrated **strong debugging skills** across the tech stack to optimize audio streaming and modular architecture, reducing load times by 40%.
- Drove **alignment and communication** across cross-functional teams to ensure HIPAA-compliant secure workflows and RBAC.

Tyxtix Technologies

Software Developer

Bangalore

Aug 2021 – Nov 2023

- Built single-page applications with React.js and Angular, ensuring reusable and responsive components and reducing development time by 25%.
- Led development of a task management system with multimedia upload using **Node.js** and REST APIs, improving user engagement by 15%.
- Collaborated with designers in Figma to deliver pixel-perfect, cross-browser UIs, improving design accuracy by 20%.
- Deployed Next.js and Tailwind CSS websites while managing **CI/CD** processes to optimize performance and SEO.

Projects

AI-Powered Transcription System | *ScribeEMR Systems*

- Developed an AI-driven system to convert real-time speech to text for medical documentation.
- Integrated Deepgram and Azure Speech APIs to achieve 95% transcription accuracy.

Education

Bachelor of Engineering in Electronics & Communication

2017 – 2021

Government College of Engineering, Tirunelveli
