Professional Summary

Senior Software Engineer with over 5 years of professional experience specializing in modern frontend development, React ecosystems, and micro frontend architectures. Proven track record of building production-grade React.js and cross-platform applications, utilizing Module Federation for autonomous UI deployment, and optimizing Web Performance (Core Web Vitals). Adept at delivering pixel-perfect interfaces from Figma designs, automating CI/CD pipelines, and leading cross-functional engineering alignments.

Technical Skills

Core Frontend Frameworks: React.js (Hooks, Context, Custom State Management), Next.js, Remix, Angular, Single-SPA
Architecture & Paradigm: Micro Frontend Architectures, Module Federation (Webpack 5), Component-Driven Architecture
Languages & Syntaxes: JavaScript (ES6+), TypeScript, HTML5, CSS3
Styling & UI/UX Libraries: Material UI (MUI), Tailwind CSS, Styled Components, Emotion, Storybook, Chromatic
Tooling & Bundlers: Vite, Webpack 5, Turbopack, ESBuild, Node.js, React Hook Form, CKEditor
API Integration & Protocols: RESTful APIs, GraphQL, SignalR, WebRTC (Real-time live streaming & audio chunking)
Testing Frameworks: Jest, React Testing Library, Cypress, Detox
DevOps, Cloud & CI/CD: AWS (S3 bucket formatting, CloudFront, Amplify), Docker, GitHub Actions
Performance Optimization: Core Web Vitals monitoring, lazy loading, code splitting, bundle optimization, tree shaking

Professional Experience

ScribeEMR Systems Pvt Ltd

Feb 2024 – Present

Senior Frontend Developer

Bangalore, India

- Developed and optimized production-ready UI components using **TypeScript**, **MUI**, and **React Hook Form**, improving development efficiency by 20% while driving a component-driven architecture.
- Architected and scaling a scalable **Micro Frontend architecture** utilizing **Module Federation (Webpack 5)** to enable multiple independent teams to build, test, and autonomously deploy UI modules.
- Integrated AI-powered transcription services with **Deepgram** and Azure Speech APIs, achieving 95% accuracy while managing real-time data streaming and complex client-side state updates.
- Leveraged vite coding techniques to rapidly prototype and iterate on collaborative rich-text features using **CKEditor** and **SignalR** for multi-user workspace synchronization.
- Demonstrated strong debugging skills across the modern technical stack to optimize audio streaming protocols and modular architecture, reducing initial application load times by 40%.
- Drove alignment and communication across cross-functional engineering teams to ensure HIPAA-compliant secure workflows, Role-Based Access Control (**RBAC**), and robust code quality standards.
- Optimized web performance across deployments by auditing **Core Web Vitals**, establishing performance budgets, enforcing lazy loading strategies, and tuning code splitting.
- Maintained automated **CI/CD pipelines** using **GitHub Actions**, **Docker**, and **AWS S3 / CloudFront** for independent micro frontend deployment releases and test automation via **Jest**.

Tymtix Technologies

Aug 2021 – Nov 2023

Software Developer

Bangalore, India

- Built scalable, high-performance single-page applications with **React.js** and **Angular**, ensuring reusable, accessible, and responsive components that reduced development cycles by 25%.
- Led the development of a secure task management system featuring multimedia upload handling utilizing **Node.js** and optimized **REST APIs**, improving end-user engagement by 15%.
- Collaborated directly with product designers in **Figma** to translate requirements into polished, pixel-perfect, cross-browser compatible UIs, improving design delivery accuracy by 20%.
- Deployed **Next.js** and **Tailwind CSS** websites while establishing automated **CI/CD** workflows to optimize production web performance, bundle tree shaking, and SEO metrics.
- Authored comprehensive client-side unit and integration testing suites using **Jest** and **React Testing Library** to ensure application reliability and minimize regressions.

Education

Government College of Engineering

Bachelor of Electronics and Communication Engineering

2021

Tirunelveli
